Sanjana

9901611394 sanjanavaradarj@gmail.com sanjana-v sanjanavaradarj

Skills

- **Programming:** Java, Python
- **Backend:** Java
- **Core:** Operating Systems, Data Structures and Algorithms

Projects

Digital Money Transition *6 Months*
Technologies: Java, Python

- Developed a project focused on transitioning traditional monetary transactions into a **digital payment workflow**.
- Designed a simple solution to demonstrate secure and convenient digital transactions.

Driver Drowsiness Detection System *6 Months*
Technologies: Arduino, Embedded Systems, Microcontroller

- Developed a system to **detect driver drowsiness** and improve road safety.
- Integrated an **Arduino-based microcontroller** with sensors to identify signs of driver fatigue.

experiences

- Currently seeking opportunities to gain practical industry experience and apply programming skills.

Achievements

- Developed academic projects involving **digital payments** and **driver safety technology**.
- Currently building programming skills in **Java and Python**.

Education

B.E. CSE (Data Science), Adhichunchanagiri Institute of Technology 2026
Chikkamagaluru, Karnataka *CGPA: 6.58*

PU College, Nagarjuna PU College 2025
Chikkaballapur, Karnataka *CGPA: 68.17*

10th, Oxford English School 2023
Bangalore Rural, Devanahalli *CGPA: 87.4*
